

# Wealth Protector Fund of Funds

31 March 2015

## Investment mandate and objective

The objective of the fund is to deliver inflation adjusted returns over a rolling 3 year period, with no negative 12 month period. The fund is multi-managed to add diversification of investment strategies and sources of returns. The fund is allowed to invest across all asset classes and to invest both locally and globally (as permitted by Regulation 28). The managers use various capital protection strategies to deliver consistent, positive returns within a low to moderate risk parameter. The managers have various investment styles, ranging from asset allocation to stock selection and multiple asset class exposures all of which are designed to lower market risk and increase returns.

**Investment features:**

- Regulation 28 Compliant
- Capital preservation
- Flexible asset allocation
- Local and international exposure

### Total expense ratio (TER)

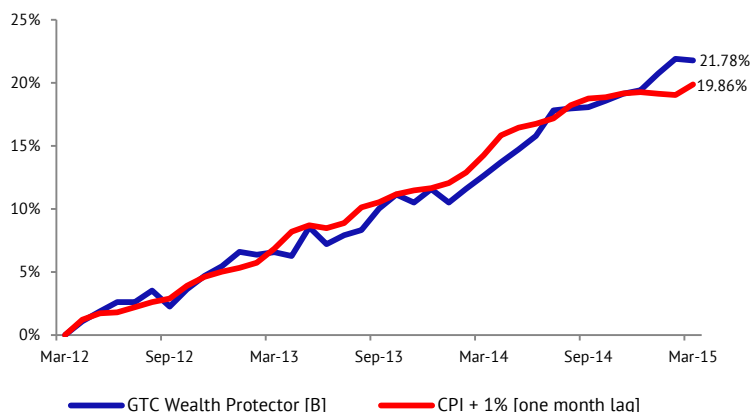

A Total Expense Ratio (TER) is a measure of a portfolio's assets that are relinquished as operating expenses. The total operating expenses are expressed as a percentage of the average value of the portfolio. Included in the TER is the proportion of costs that are incurred by the performance component, fee at target, trading costs (including brokerage, VAT, STT, STRATE and insider trading levy) and other expenses. These are disclosed separately as percentages of the net asset value. A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs.
