Member: **R2 820**

Adult dependant: **R2 028**

Child dependant: **R900**

Once your Savings has been depleted you will have to pay for your day-to-day expenses from your own pocket.

Call the doctor

Even if your Savings has run out, you will enjoy unlimited cover for FP consultations, as long as you use a **nominated** FP who is on the Fedhealth Network.

Let's talk about contraception

If you're not ready for the pajama drill quite just yet, there's no need to worry. The Scheme will pay for certain female contraceptives such as the Pill, contraceptive rings, IUD (including the Mirena) and certain injectables, from Risk, giving you the freedom to plan your family.

Oh baby!

Welcoming a teeny tiny baby into your family must be one of life's happiest moments! We like to make this special event even more joyful by not only ensuring that your day-to-day benefits cover all your pregnancy costs, but also offering you the value-adding Fedhealth Baby Programme. We pay pregnancy costs from Savings if you have funds available. Consultations with a gynaecologist will be covered at cost from your Savings, and if you use a Fedhealth Network gynaecologist, the costs will be covered in full at the agreed rate. Just remember, non-network gynaecologists may charge more for consultations, which will result in your day-to-day funds being depleted sooner. We'll be with you every step of the way - nine months and beyond!

Plus, for more value-added support benefits paid from Risk to make your day-to-day medical spending go further, like **specialised radiology**, please go to page 5 of this brochure.
